SHARP XEA: FREE PC PROGRAMMING TOOL

The free PC Programming tool allows for the preset data on the Electronic Cash Register to be edited and saved and is an essential resource for any retail or hospitality user.

Utilising the built-in SD card slot, no extra cabling is required as the data which is stored on the SD card will be read by the PC Programming tool.

To ensure that professional receipts are given to customers, the PC Programming tool has a useful graphic logo function which allows for images to be printed on the receipt.

The PC Programming tool saves time and helps to minimise any costly mistakes as data can be viewed on a PC screen prior to uploading to the Electronic Cash Register.

With so much functionality in a simple to use software package, the free to download Sharp XEA PC Programming tool is an indispensable tool for any retail or hospitality user.

Support for the following models: XEA137 series; XEA207 series; XEA217 series; XEA307

Features at-a-glance
